<http://www.childmigration.net/files/Harttgen%20Klasen%20Final.pdf>

Themes: Child Wellbeing

Regions: West Europe

Age Ranges: <6, 6-11, 12-17

Keywords: Physical Health, Education/Cognitive Skills, Economic Status

Abstract: This paper provides an overview of existing approaches and findings, and asks further questions about how migration influences the well-being of children and youth who have migrated to European countries. Particular emphasis is given to migrant children and youth's perspective.
